First International Conference on Digital Economy
Emerging Technologies and Business Innovation
April 28-30, 2016 - Carthage, Tunisia

CALL FOR PAPERS

The first International Conference on Digital Economy (ICDEc) will take place from April 28th to 30th, 2016 in the beautiful Mediterranean coastal city of Carthage - Tunisia. The theme of the ICDEc-2016 is "Digital Economy: Emerging Technologies and Business Innovation".

The purpose of the ICDEc Conference is to promote innovative research that highlights the impact of emerging technologies of the digital economy, with in particular, role of Cloud Computing, Big Data and mobile technologies on business innovation. The ICDEc conference focuses on new models and applications in management, digital marketing, web intelligence, e-commerce, security and privacy.

The conference Chairs invite researchers to submit contributed papers, case studies, special topic session proposals and roundtable discussion proposals. Submissions should focus on technological or business and marketing concerns.
