

2nd International Conference on Digital Economy

Emerging Technologies and Business Innovation

04-05-06
May 2017

📍 Sidi Bou Said, Tunisia

ICDEc 2017 Doctoral Workshop

Aims and Scope

The aim of the **ICDEc 2017 doctoral workshop** is to provide a forum for doctoral and graduate students interested in Digital Economy, Emerging technologies and business innovation. Students will have the opportunities to present late-breaking results, ongoing research activities and speculative or innovative works in progress to experts and professionals of digital economy attending the ICDEc 2017 conference. This track is intended to provide authors and participants with the ability to connect with each other and to engage in discussions about the work. The organizers welcome abstracts that address issues related to digital economy and innovation technologies. Accepted works will be presented in a doctoral posters session within the ICDEc 2017 main conference. Posters provide authors with a unique opportunity to draw attention to their work during the conference.

Topics of interest

The topics of the Doctoral workshop includes, but is not limited to the following topics:

- Web Intelligence Technologies
- Big Data
- Knowledge Discovery and Management
- Intelligent Agent Systems
- Web Security

- Digital Technology & New Business Models
- Innovation & Digital Economy
- Digital Marketing
- E- learning

Submission procedure
